Jefferson School District App Information

As part of our ongoing commitment to communicating with our patrons, you can now download the Jefferson SD 251 app.

The app is designed to provide easy access to school and district information including PowerSchool, calendars, menus, notifications, School Board information and more.

Please visit the Apple App Store or Goole Play for Android to download the app.

Once you download the app, you can navigate to the second page to access your settings. Click on the gear icon and you can select which schools you would like to receive notifications for.
