

How to disconnect a personal device from the school districts organization.

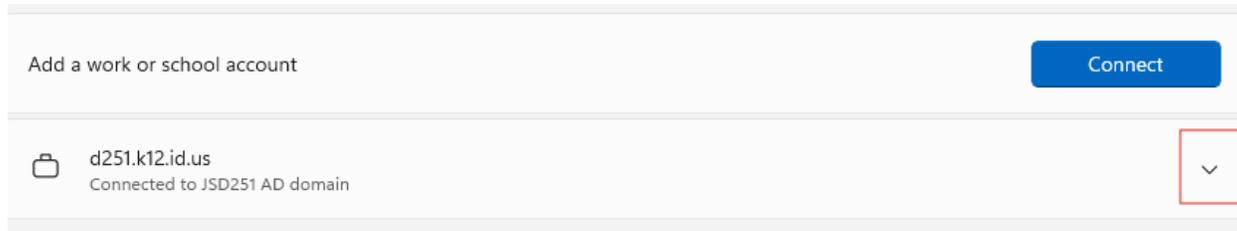

Step 1: Open your settings and select “Accounts” on the left side.

Step 2: Select “Access work or school” in the next list.

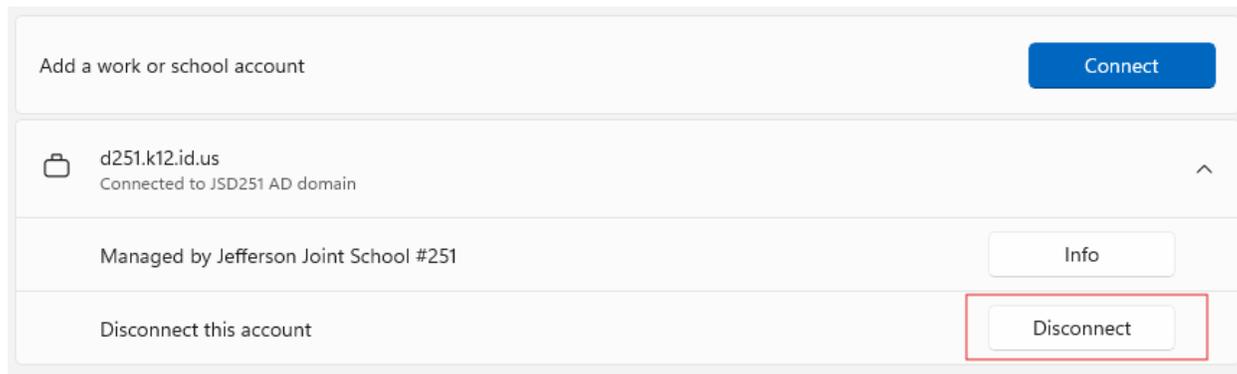

Step 3: Click on the drop-down arrow associated with the JSD251 AD domain.

The screenshot shows the 'Add a work or school account' section. At the top right is a blue 'Connect' button. Below it, a list of accounts is shown. The first account is 'd251.k12.id.us' with the subtext 'Connected to JSD251 AD domain'. To the right of this account is a small downward-pointing arrow icon, which is highlighted with a red rectangular box.

Step 4: Click “Disconnect” and wait for the device to be un-enrolled from the organization.

The screenshot shows the account details for 'd251.k12.id.us'. At the top right is a blue 'Connect' button. Below the account name, it says 'Managed by Jefferson Joint School #251'. To the right of this text is an 'Info' button. At the bottom left, there is a 'Disconnect this account' link. To the right of this link is a 'Disconnect' button, which is highlighted with a red rectangular box.
