INDEPENDENT AUDITOR'S REPORT

The Board of Trustees
Jefferson Joint School District #251
Rigby, Idaho

Report on the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Jefferson Joint School District #251, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Jefferson Joint School District #251 as of June 30, 2025, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Jefferson Joint School District #251, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Jefferson Joint School District #251's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risks of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Jefferson Joint School District #251's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Jefferson Joint School District #251's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the schedules of employer contributions-PERSI OPEB, employer's share of net OPEB asset, changes in total OPEB liabilities and related ratios, employer's share of net pension liability PERSI, schedule of employer contributions PERSI, and budgetary comparison information on pages 43 through 54 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's response to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing

information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Jefferson Joint School District #251's basic financial statements. The accompanying combining and individual nonmajor fund financial statements, and the schedule of expenditures of federal awards, as required by the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 10, 2025, on our consideration of Jefferson Joint School District #251's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Jefferson Joint School District #251's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Jefferson Joint School District #251's internal control over financial reporting and compliance.

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE
STATEMENT OF NET POSITION
June 30, 2025

Total fund balance, governmental funds \$ 50,991,714

Amounts reported for governmental activities in the Statement of Net Position are different because:

Capital assets used in governmental activities are not current financial resources and therefore are not reported in this fund financial statement, but are reported in the governmental activities of the Statement of Net Position.

Historical Cost	142,402,935
Accumulated Depreciation	(44,418,633)
Subscription IT assets	152,949
Accumulated Amortization	(50,983)

Certain other expenses unavailable for use are not available to pay current period expenditures and therefore are not reported in this fund financial statement, but are reported in the governmental activities of the Statement of Net Position. 26,123,784

Certain other revenues unavailable for use are not available to pay current period expenditures and therefore are not reported in this fund financial statement, but are reported in the governmental activities of the Statement of Net Position. (2,710,936)

Property taxes receivable have been levied and are due this year, but are not available soon enough to pay for the current period's expenditures, and therefore are unavailable for use in the funds. 65,614

Long-term liabilities, including bonds payable, are not due and payable in the current period, and therefore are not reported as liabilities in the funds. Long-term liabilities at year end consisted of:

General obligation bonds	(31,851,380)
Accrued compensated absences	(148,131)
Accrued interest payable	(833,667)
Postemployment benefit payable	164,347
Net pension liability	(27,189,000)

JEFFERSON JOINT SCHOOL DISTRICT #251
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND
CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT
OF ACTIVITIES
For the Year Ended June 30, 2025

Net change in fund balances - total governmental funds: \$ 19,082,383

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report outlays for capital assets as expenditures because such outlays use current financial resources. In contrast, the Statement of Activities reports only a portion of the outlay as expense. The outlay is allocated over the assets' estimated useful lives as depreciation expense for the period. This is the amount by which capital outlays \$12,629,085 exceeded depreciation \$3,304,732 in the current period. 9,324,353

Property tax revenues (including penalties and interest) in the Statement of Activities that do not provide current financial resources are not reported as revenues in the fund. 65,614

Governmental funds report bond proceeds as current financial resources. In contrast, the Statement of Activities treats such issuance of debt as a liability. Governmental funds report repayment of bond principal as an expenditure, In contrast, the Statement of Activities treats such repayments as a reduction in long-term liabilities. This is the amount by which repayments exceeded proceeds. 6,688,053

Governmental funds do not report the pension contribution expense and revenue because it does not provide current financial resources. In contrast, the Statement of Activities reports the expense and revenue. Thus, the change in net position differs from the change in fund balance by this pension contribution expense and revenue. 2,042,715

Some expenses reported in the statement of activities do not require the use of current financial resources and these are not reported as expenditures in governmental funds:

Accrued interest not reflected on Governmental funds	(132,327)
Postemployment benefit not reflected on Governmental funds	521,518
Amortization of bond costs	545,652
Compensated absences not reflected on Governmental funds	<u>(16,091)</u>

JEFFERSON JOINT SCHOOL DISTRICT #251
NOTES TO FINANCIAL STATEMENTS
For the Year Ended June 30, 2025

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Jefferson Joint School District #251 (District) is the basic level of government exercising oversight responsibility for all activities related to public school education in Jefferson Joint School District, Jefferson County, Idaho. The Board of Trustees, a seven-member group, is elected by the public and as such has governance responsibility over all activities related to public elementary and secondary school education within the jurisdiction of the school district. The Board of Trustees have decision making authority, the power to designate management, the responsibility to significantly influence operations and primary accountability for fiscal matters. The District is not included in any other governmental "reporting entity."

The District prepares its basic financial statements in conformity with Generally Accepted Accounting Principles (GAAP) promulgated by the Governmental Accounting Standards Board (GASB) and other authoritative sources identified in *Statement of Auditing Standards No. 69* of the American Institute of Certified Public Accountants.

In 2003, the District implemented GASB Statement No. 34, *Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments*, GASB Statement No. 37, *Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments: Omnibus* which provides additional guidance for the implementation of GASB Statement No. 34, and GASB Statement No. 38, *Certain Financial Statement Note Disclosures* which changes note disclosure requirements for governmental entities.

GASB Statement No. 34 established a new financial reporting model for state and local governments that included the addition of management's discussion and analysis, government-wide financial statements, required supplementary information and the elimination of the effects of internal service activities and the use of account groups to the already required fund financial statements and notes. The GASB determined that fund accounting has and will continue to be essential in helping governments to achieve fiscal accountability and should, therefore, be retained. The GASB also determined that government-wide financial statements are needed to allow users of financial reports to assess a government's operational accountability. The new GASB model integrates fund based financial reporting and government-wide financial reporting as complementary components of a single comprehensive financial reporting model.

A. Reporting Entity

The District is considered an independent entity for financial reporting purposes and is considered a primary government. As required by generally accepted accounting principles, these financial statements have been prepared based on considerations regarding the potential for inclusion of other entities, organizations or functions as part of the District's financial reporting entity. Based on these considerations, the District's basic financial statements do not include any other entities. Additionally, as the District is considered a primary government for financial reporting purposes, its activities are not considered a part of any other governmental or other type of reporting entity.

Considerations regarding the potential for inclusion of other entities, organizations or functions in the District's financial reporting entity are based on criteria prescribed by generally accepted accounting principles. These same criteria are evaluated in considering whether the District is a part of any other governmental or other type of reporting entity.

JEFFERSON JOINT SCHOOL DISTRICT #251
NOTES TO FINANCIAL STATEMENTS
For the Year Ended June 30, 2025

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

The overriding elements associated with prescribed criteria considered in determining that the District's financial reporting entity status is that of a primary government are; that it has a separately elected governing body; it is legally separate; and it is fiscally independent of other state and local governments.

Additionally, prescribed criteria under generally accepted accounting principles include considerations pertaining to organizations for which the primary government is financially accountable; and considerations pertaining to other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Changes in Net Position) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. The governmental activities are supported by tax revenues and intergovernmental revenues. The District has no business-type activities that rely, to a significant extent, on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting operational or capital requirements of a particular function. The District does not allocate general (indirect) expenses to other functions. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year end. Property taxes, sales taxes, franchise taxes, licenses, and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds.

JEFFERSON JOINT SCHOOL DISTRICT #251
NOTES TO FINANCIAL STATEMENTS
For the Year Ended June 30, 2025

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants, block grants, and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net position available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, followed by block grants, and then by general revenues.

Buildings, furniture, fixtures, equipment and vehicles of the District are depreciated using the straight line method over the following estimated useful lives:

<u>Category of Asset</u>	<u>Estimated Useful Lives</u>
Buildings and improvements	20-50
Equipment	5-20
Vehicles	8

D. Compensated Absences

The liability for compensated absences reported in the government-wide statements consists of unpaid, accumulated vacation leave balances. The liability has been calculated using vesting method, in which leave amounts for employees who currently are eligible to receive termination payments are included. The entire compensated absences owed are reported in the government-wide financial statements.

E. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as deferred outflows/inflows of resources in the applicable governmental activities statement of net position. For other long-term obligations, only that portion expected to be financed from expendable, available financial resources is reported as a deferred outflows/inflows of resources in a governmental fund. For bonds issued after June 30, 2004, bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

JEFFERSON JOINT SCHOOL DISTRICT #251
NOTES TO FINANCIAL STATEMENTS
For the Year Ended June 30, 2025

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

F. Leases

The District accounts for leases in accordance with GASB 87. Leases are evaluated using the criteria outlined in GASB 87 to determine whether they will be classified as operating leases or finance leases. The District determines if an arrangement is a lease, or contains a lease, at inception of a contract and when terms of an existing contract are changed. The District determines if an arrangement conveys the right to use an identified assets and whether the District obtains substantially all of the economic benefit from and has the ability to direct the use of the asset. The District recognizes a lease liability and right-of-use (ROU) asset at the commencement date of the lease. At June 30, 2025, operating lease ROU assets and related current and long-term portions of operating lease liabilities have been presented in the balance sheet.

Lease liabilities: a lease liability is measured based on the present value of its future lease payments. The discount rate is the rate implicit in the lease if it is readily determinable; otherwise, the District uses its incremental borrowing rate. The District's incremental borrowing rate for a lease is the rate of interest it would have to pay on a collateralized basis to borrow an amount equal to the lease payments under similar terms and in a similar economic environment and geographic location.

ROU assets: a ROU assets is measured at the commencement date at the amount of the initially measured liability plus any lease payments made to the lessor before or after commencement date, minus any lease incentives received, plus any initial direct costs. Unless impaired, the ROU asset is subsequently measured throughout the lease term at the amount of the lease liability, plus (minus) unamortized initial direct costs, plus (minus) any prepaid (accrued lease payments), less the unamortized balance of lease incentives received. Lease cost for lease payments is recognized on a straight-line basis over the lease of the term. Finance lease ROU assets are amortized on a straight-line basis over the shorter of the lease term or the remaining useful life of the asset.

G. Subscription IT assets

The District accounts for subscription IT assets in accordance with GASB 96. Subscription based information technology arrangements (SBITAs) are contracts that convey the right to use another party's (a SBITA vendor's) information technology (IT) software, alone or in combination with tangible capital assets (the underlying IT asset), as specified in the contract for a period of time in an exchange or exchange-like transaction. When the subscription term during which the District has a noncancellable right to use the underlying IT asset is over 12 months the district recognizes a right-to-use subscription asset – an intangible asset – and a corresponding subscription liability. At June 30, 2025, the subscription IT asset net of accumulated amortization of the right-to-use subscription asset has been presented in the balance sheet.

H. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**JEFFERSON JOINT SCHOOL DISTRICT #251
NOTES TO FINANCIAL STATEMENTS
For the Year Ended June 30, 2025**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

I. Fund Accounting

According to generally accepted accounting principles for governmental units, the District's financial operations are accounted for in the following funds:

GOVERNMENTAL FUND TYPES

General Fund

This fund accounts for the general operating (sometimes called the Maintenance & Operations, or M&O) fund of the District. It is used to account for all financial resources except those required to be accounted for in any other fund.

Special Revenue Funds

These funds account for federal and state funded grants as well as locally funded educational programs whose expenditures are limited to specific purposes. Such grants have been awarded to the district with the purpose of accomplishing specified educational tasks defined in the grant agreements.

Debt Service Fund

This fund accounts for the use of taxes levied and other revenues collected for the retirement of debt principal, interest and related costs.

Capital Projects Fund

This fund is used to account for the school plant facility tax levied and other resources to be used for the construction, purchase and maintenance of school buildings, buses, and equipment.

Fiduciary Fund Types

Trust and Custodial Funds

Trust and custodial funds are used to account for assets held by the district in a trustee capacity or as an agent for student groups and employees.

J. Budgets

Annual budgets are prepared and adopted by the board of Trustees before the beginning of the fiscal year which is July 1st. Budgets are prepared on the GAAP basis of accounting. Annual appropriated budgets are adopted for the general, special revenue, debt service, and capital projects funds. All annual appropriations lapse at fiscal yearend. The District amended its budgets during the year to adjust for updated information. The amended budgets were approved by the Board of Trustees.

Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting – under which purchase orders, contracts, and other commitments for the expenditures of resources are recorded to reserve that portion of the applicable appropriation – is utilized in the governmental funds. Encumbrances outstanding at year end are reported as assigned fund balance to indicate an obligation of the District.

The District budgets transfers from the general fund to other funds to cover the costs incurred by these funds in excess of the revenues generated. Certain indirect costs are charged to several special revenue funds through budgeted transfers from the special revenue funds to the general fund.

JEFFERSON JOINT SCHOOL DISTRICT #251
NOTES TO FINANCIAL STATEMENTS
For the Year Ended June 30, 2025

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

K. Property Tax

Property taxes are collected by the County Treasurer and remitted to the District monthly. Taxes are payable in semi-annual installments due December 31 and June 30 of each year after which time they become delinquent. Taxes levied but not received by the district by June 30 have been accrued and taxes still unpaid after sixty days beyond the fiscal year are shown as deferred inflows of resources.

L. Nonspendable and Spendable Fund Balances

Fund balance is separated into nonspendable and spendable fund balance. Nonspendable fund balance includes amounts that cannot be spent because they are either: (1) not in spendable form; or (2) legally or contractually required to be maintained intact. Spendable amounts are classified into restricted, committed, assigned and unassigned. The following is a list of nonspendable and spendable fund balance designations for Jefferson School District #251.

Nonspendable for inventories. This fund balance cannot be spent. It is designated to be used for inventories.

Committed to Board Policy 7100. This fund balance is committed for 7% of gross revenue as mandated by Board Policy 7100.

Assigned for debt service. This designation was created to segregate a portion of the fund balance account for debt service, including both principal payments and interest payments. The designation was established to satisfy restrictions imposed by various bond agreements.

Assigned for other purposes. This reserve indicates fund balances that can only be spent for purposes authorized by the funding source.

Unassigned. This fund balance is not assigned to any specific purpose. The District will use the unassigned fund balance for expenditures in the subsequent fiscal year.

M. Net Position

Net position represent the difference between assets and liabilities. Net position invested in capital assets, net of related debt, consist of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net position invested in capital assets, net of related debt excluded unspent debt proceeds. Net position are reported as restricted when there are limitations imposed on their use either through enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Restricted resources are used first to fund appropriation.

The District first applied restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

N. Pensions

For purposes of measuring the net pension liability and pension expense, information about the fiduciary net position of the Public Employee Retirement System of Idaho Base Plan (Base Plan) and additions to deductions from the Base Plan's fiduciary net position have been determined on the same basis as they are reported by the Base Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

**JEFFERSON JOINT SCHOOL DISTRICT #251
NOTES TO FINANCIAL STATEMENTS
For the Year Ended June 30, 2025**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

O. Other Post-Employment Benefits – Healthcare Benefits

PERSI employees who retire and have not yet become eligible for Federal Medicare coverage are eligible to purchase insurance through the District's healthcare plan. Although retirees pay their own premium, there is an implicit cost due to increased group premiums when retirees are included in District insurance plans. For the purpose of measuring the net other post-employment benefit liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, and other post-employment benefit expenses, information about fiduciary net position of the implicit medical benefit Plan and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the Plan. Benefit payments are recognized when due and payable in accordance with the benefit terms.

P. Other Post-Employment Benefits – Sick Leave Plan

For purposes of measuring the net OPEB asset, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense (expense offset), information about the fiduciary net position of the Public Employee Retirement System of Idaho (PERSI or System) Sick Leave Insurance Reserve Fund and additions to/deductions from Sick Leave Insurance Reserve Fund's fiduciary net position have been determined on the same basis as they are reported by the Sick Leave Plan. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

2. CASH AND CASH EQUIVALENTS

Cash and cash equivalents are defined as those financial instruments which have a maturity date of three months or less from the date of acquisition.

Deposits

The carrying amount of the Districts deposits with financial institutions was \$11,821,718 and the bank balance was \$12,234,246. The amount not covered by FDIC insurance was \$11,494,378.

Investments

Statutes authorize the District to invest in obligations of the U.S. Treasury and U.S. agencies and repurchase agreements. The District's investments at year end consisted of \$42,534,193 invested in the Idaho State Investment Pool. The Idaho State Investment Pool is not covered by Federal Deposit Insurance, but is primarily invested in government-backed securities. The Idaho State Treasurer provides oversight for investments by or through any department or institution of the State of Idaho. Amounts held by the State Investment Pool were held in the following investments: government agency notes, commercial paper, corporate bonds, U.S. treasury notes, money market accounts, repurchase agreements, and purchased accrued interest. All investments for the State Investment Pool are not collateralized. The investments held by the State Investment Pool are carried at cost plus accrued interest which is the fair market value also. Information necessary to determine the level of collateralization for the State Investment Pool was unavailable.

**JEFFERSON JOINT SCHOOL DISTRICT #251
NOTES TO FINANCIAL STATEMENTS
For the Year Ended June 30, 2025**

2. CASH AND CASH EQUIVALENTS (cont.)

Investments

The District had the following accounts. All deposits are carried at cost plus accrued interest.

<u>Depository Account:</u>	<u>Bank Balance</u>
Insured	\$ 739,868
Uninsured and uncollateralized	11,494,378
Total deposits	<u>\$ 12,234,246</u>

Investments:

Uncollateralized and held by Idaho State Investment Pool in the pool's safekeeping agent in the pool's name unrated fund	<u>\$ 42,534,193</u>
--	----------------------

At year-end, the District had the following investment and maturities:

<u>Investment Type</u>	<u>Fair Value</u>	<u>< 1 year</u>	<u>1-5 years Years</u>	<u>>5 years</u>	<u>Cost</u>	<u>Rating</u>	<u>%</u>
State Investment Pool	\$ 42,534,193	\$ 42,534,193	\$ -	\$ -	\$ 42,534,193	N/A	100.00%
Total	<u>\$ 42,534,193</u>	<u>\$ 42,534,193</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 42,534,193</u>		100.00%

GASB Statements No. 72, *Fair Value Measurement and Application*, (Statement 72) specifies a hierarchy of valuation classifications based on whether the inputs to the valuation techniques used in each valuation classification are observable or unobservable. These classifications are summarized in the three broad levels listed below:

Level 1 – Unadjusted quoted prices for identical instruments in active markets, that the reporting entity has the ability to access at the measurement date.

Level 2 – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are directly or indirectly observable. Examples would be matrix pricing, market corroborated pricing and inputs such as yield curves and indices.

Level 3 – Valuations derived from valuation techniques in which significant inputs or significant value drivers are unobservable and may rely on the reporting entity's own assumptions, but the market participant's assumptions that may be used in pricing the asset or liability.

As of June 30, 2025, the fair value measurements of the District at \$42,534,193 fell under Level 2 inputs.

5. OTHER POST-EMPLOYMENT BENEFITS (OPEB) - HEALTH CARE BENEFITS

Plan Description

Jefferson Joint School District #251’s Employee Group Benefits Plan is a single-employer defined benefit healthcare plan administered by Blue Cross of Idaho. Blue Cross provides medical and prescription drug insurance benefits to eligible retirees and their eligible dependents. Delta Dental and Willamette Dental provide dental insurance benefits to eligible retirees and their eligible dependents. A retiree who retires with the Public Employee Retirement System of Idaho (PERSI) is eligible to keep the District’s health insurance as a retiree until age 65, or until the retiree is eligible for coverage under Medicare. Retirement eligibility is determined based on a minimum of reaching age 55 with at least 5 years of membership with a PERSI employer. The retiree is on the same medical plan as the District’s active employees.

Funding Policy

The contribution requirement of plan members is established by the District’s insurance committee in conjunction with our insurance provider. The required contribution is based on a projected pay-as-you-go financing requirements. For fiscal year 2025, the District contributed approximately \$41,279 of the annual required contribution of \$174,507. Retirees are required to pay 100% of the premiums for both the retiree and the dependent coverage.

Net Other Post-Employment Benefit Liability

The Net Other Post-Employment Benefit Liability (NOL) was measured as of June 30, 2025, and the total other post-employment benefit liability was determined by an actuarial valuation as of June 30, 2025.

Plan Members

Plan participants as of June 30, 2025 are summarized by status as follows:

	Accrued Liability	Annual Required Contribution	Participant Counts
Active participants	\$950,619	\$165,436	467
Inactive participants	181,417	9,071	10
	<u>\$1,132,036</u>	<u>\$174,507</u>	<u>477</u>

**JEFFERSON JOINT SCHOOL DISTRICT #251
 NOTES TO FINANCIAL STATEMENTS
 For the Year Ended June 30, 2025**

5. OTHER POST-EMPLOYMENT BENEFITS (OPEB) - HEALTH CARE BENEFITS (cont.)

Actuarial Methods and Assumptions

The District does not pre-fund benefits. The current funding policy is to pay benefits directly from general assets on a pay-as-you-go basis and there is not a trust for accumulating plan assets. The following actuarial methods and assumptions were used in June 30, 2025 accounting valuation:

Valuation Timing	June 30, 2025
Actuarial Cost Method	Entry age normal
Projected Payroll Increases	3.75%
Discount Rate	4.93%
Health Cost Trend Rates	Medical trend is 8.2% from the year ending June 30, 2025, then gradually decreasing to an ultimate rate of 4% for 2075 and beyond. Dental trend is 3.8% for 2025 and then 3.5% from the year ending June 30, 2026 and gradually lowering to 2.0% for 2029 and beyond. Prescription drug trend is 8.2% from the year ended June 30, 2025, then gradually decreasing to an ultimate rate of 4% for 2075 and beyond, as shown in the June 30, 2025 valuation report.
Retirement	Based on PERSI with 36% of males and 44% of females eligible at age 65, 100% of males and 100% of females first year eligible at age 70.
Participation	40% of future retirees are assumed to elect medical coverage, 40% of future retirees are assumed to elect dental coverage, and 70% of the future retirees who elect medical coverage and are married are assumed to elect spousal coverage as well.
Mortality- Retired	For PERSI teachers, mortality follows the Pub-2010 Teacher table adjusted 112% for males or adjusted 121% for females, projected generationally using mortality improvement rates reported by Social Security Administration from 1957 to 2017.
Mortality - Disabled	For disabled PERSI members, mortality follows the Pub-2010 Disabled table adjusted 138% for males or adjusted 136% for females, projected generationally using mortality improvement rates reported by Social Security Administration from 1957 to 2017.

6. CHANGES IN LONG-TERM DEBT AND DEBT SERVICE REQUIREMENTS

The general obligation bond issue 200 series was refunded by refunding bond 2015 series issued \$4,950,000. The cash flows required to service the old debt are \$12,287,750. The cash flows required to service the new debt are \$9,393,250. This results in an economic gain of \$2,894,500 over time from this advanced refunding transaction.

Part of the Series 2018 was paid off during the 2025 year. The debt balance at June 30, 2025 defeased through a cash payment by the District was \$4,865,000.

In November 2018, the District issued \$31,665,000 of general obligation bonds for the construction of a new elementary school and improvements to existing schools.

In December 2007, and early 2010, the District issued \$5,000,000 of Qualified School Construction Bonds, \$21,805,000 general obligation Build America Bonds, and \$3,195,000 general obligation bonds.

In December 2010, the District issued \$15,000,000 general obligation QSCB bonds.

The 2010-A bond issue was refunded by refunding bond 2019 series issued \$13,480,000. The cash flows required to service the old debt are \$20,386,434. The cash flows to service new debt are \$13,550,875. This results in an economic gain of \$4,167,684 over time from this advanced refunding transaction.

In June 2023, the District issued \$4,955,000 of general obligation bonds for the construction of a gym at Roberts Elementary School.

A summary of general long-term debt transactions of the District, for the year ended June 30, 2025, follows:

	BALANCE 7/1/2024	ADDITIONS	RETIREMENT	BALANCE 6/30/2025	DUE WITHIN ONE YEAR
General obligation bond	\$ 43,303,348	\$ -	\$ (11,451,968)	\$ 31,851,380	\$ 6,906,968

**JEFFERSON JOINT SCHOOL DISTRICT #251
NOTES TO FINANCIAL STATEMENTS
For the Year Ended June 30, 2025**

7. PENSION PLANS

Plan Description

The District contributes to the Base Plan which is a cost-sharing multiple-employer defined benefit pension plan administered by Public Employee Retirement System of Idaho (PERSI or System) that covers substantially all employees of the State of Idaho, its agencies and various participating political subdivisions. The cost to administer the plan is financed through the contributions and investment earnings of the plan. PERSI issues a publicly available financial report that includes financial statements and the required supplementary information for PERSI. That report may be obtained on the PERSI website at www.persi.idaho.gov.

Responsibility for administration of the Base Plan is assigned to the Board comprised of five members appointed by the Governor and confirmed by the Idaho Senate. State law requires that two members of the Board be active Base Plan members with at least ten years of service and three members who are Idaho citizens not members of the Base Plan except by reason of having served on the Board.

Pension Benefits

The Base Plan provides retirement, disability, death and survivor benefits of eligible members or beneficiaries. Benefits are based on members' years of service, age, and highest average salary. Members become fully vested in their retirement benefits with five years of credited service (5 months for elected or appointed officials). Members are eligible for retirement benefits upon attainment of the ages specified for their employment classification. The annual service retirement allowance for each month of credited service is 2.0% (2.3% for police/firefighters) of the average monthly salary for the highest consecutive 42 months.

The benefit payments for the Base Plan are calculated using a benefit formula adopted by the Idaho Legislature. The Base Plan is required to provide a 1% minimum cost of living increase per year provided the Consumer Price Index increases 1% or more. The PERSI Board has the authority to provide higher cost of living increases to a maximum of the Consumer Price Index movement of 6%, whichever is less; however, any amount above the 1% minimum is subject to review by the Idaho Legislature.

Member and Employer Contributions

Member and employer contributions paid to the Base Plan are set by statute and are established as a percent of covered compensation. Contribution rates are determined by the PERSI Board within limitations, as defined by state law. The Board may make periodic changes to employer and employee contribution rates (expressed as percentages of annual covered payroll) that are adequate to accumulate sufficient assets to pay benefits when due.

The contribution rates for employees are set by statute at 60% of the employer rate for general employees and 74% for police and firefighters. As of June 30, 2024 it was 6.71% for general employees and 9.83% for police and firefighters. The employer contribution rate of covered payroll is set by the Retirement Board and was 11.18% for general employees and 13.26% for police and firefighters. The District's contributions were \$3,755,993 for the year ended June 30, 2024.

JEFFERSON JOINT SCHOOL DISTRICT #251
NOTES TO FINANCIAL STATEMENTS
For the Year Ended June 30, 2025

7. PENSION PLANS (cont.)

Pension Liabilities, Pension Expense (Revenue), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2025, the District reported a liability for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions in the Base Plan pension plan relative to the total contributions of all participating PERSI Base Plan employers. At June 30, 2025, the District's proportion was 0.726853280 percent.

For the year ended June 30, 2025, the District recognized pension expense (revenue) of \$7,819,546. At June 30, 2025, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 4,328,740	\$ (493,526)
Changes of assumptions or other inputs	1,077,089	-
Net difference between projected and actual earnings	-	-
Contributions made subsequent to measurement date	16,492,638	-
Changes in the employer's proportion and differences between the employer's contributions and the employer's proportionate contributions	3,755,993	-
Total	<u>\$ 25,654,460</u>	<u>\$ (493,526)</u>

A portion of deferred outflows of resources related to pensions resulting from employer contributions subsequent to the measurement date of \$3,755,993 for the year ended June 30, 2025, will be recognized as a reduction of the net pension liability in the subsequent year.

The average of the expected remaining service lives of all employees that are provided with pensions through the System (active and inactive employees) determined at July 1, 2024 the beginning of the measurement period ended June 30, 2023 is 4.6 and 4.4 for the measurement period of June 30, 2024.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expenses (revenue) as follows:

<u>Year ended June 30:</u>	
2025	1,341,939
2026	5,069,459
2027	(874,218)
2028	(624,877)

**JEFFERSON JOINT SCHOOL DISTRICT #251
 NOTES TO FINANCIAL STATEMENTS
 For the Year Ended June 30, 2025**

7. PENSION PLANS (cont.)

Actuarial Assumptions

Valuations are based on actuarial assumptions, the benefit formulas, and employee groups. Level percentages of payroll normal costs are determined using the Entry Age Normal Cost Method. Under the Entry Age Normal Cost Method, the actuarial present value of the projected benefits of each individual included in the actuarial valuation is allocated as a level percentage of each year’s earnings of the individual between entry age and assumed exit age. The Base Plan amortizes any unfunded actuarial accrued liability based on a level percentage of payroll. The maximum amortization period for the Base Plan permitted under Section 59-1322, Idaho Code, is 25 years.

The total pension liability in the June 30, 2024 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.30%
Salary increases	3.05%
Salary inflation	3.05%
Investment rate of return (net of investment expenses)	6.35%
Cost-of-living adjustment	1.00%

Contributing Members, Service Retirement Members, and Beneficiaries Continued

- General Employees and All Beneficiaries – Males Pub–2010 General Tables, increased 11%
- General Employees and All Beneficiaries – Females Pub -2010 General Tables, increased 21%
- Teachers – Males Pub–2010 Teacher Tables, increased 12%
- Teachers – Females Pub-2010 Teacher Tables, increased 21%
- Fire & Police – Males Pub-2010 Safety Tables, increased 21%
- Fire & Police – Females Pub-2010 Safety Tables, increased 26%
- Disabled Members – Males Pub-2010 Disabled Tables, increased 38%
- Disabled Members – Females Pub-2010 Disabled Tables, increased 36%

Assumptions used to calculate the enclosed figures are described in our 2021 Experience Study. The Total Pension Liability as of June 30, 2021 is based on the results of an actuarial valuation date July 1, 2021.

The long-term expected rate of return on pension plan investments was determined using the building block approach and a forward-looking model in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Even though history provides a valuable perspective for setting the investment return assumption, the System relies primarily on the approach which builds upon the latest capital market assumptions. Specifically, the System uses consultants, investment managers and trustees to develop capital market assumptions in analyzing the System’s asset allocation. The assumptions and the System’s formal policy for asset allocation are shown below. The formal asset allocation policy is somewhat more conservative than the current allocation policy is somewhat more conservative than the current allocation of System’s assets.

JEFFERSON JOINT SCHOOL DISTRICT #251
NOTES TO FINANCIAL STATEMENTS
For the Year Ended June 30, 2025

7. PENSION PLANS (cont.)

The best-estimate range for the long-term expected rate of return is determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation. The capital market assumptions are as of 2024.

Asset Class	2024
Cash	0.00%
Fixed Income	30.00%
US/Global Equity	55.00%
International Equity	15.00%
Total	100.00%

Discount Rate

The discount rate used to measure the total pension liability was 6.35%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate. Based on these assumptions, the pension plans' net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term expected rate of return was determined net of pension plan investment expense but without reduction for pension plan administrative expense.

Sensitivity of the Employer's proportionate share of the net pension liability to changes in the discount rate.

The following presents the Employer's proportionate share of the net pension liability calculated using the discount rate of 6.35%, as well as what the Employer's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.35%) or 1-percentage-point higher (7.35%) than the current rate:

	1% Decrease (5.35%)	Current Discount Rate (6.35%)	1% Increase (7.35%)
Employer's proportionate share of the net pension liability (asset)	51,667,571	27,189,000	7,196,247

JEFFERSON JOINT SCHOOL DISTRICT #251
NOTES TO FINANCIAL STATEMENTS
For the Year Ended June 30, 2025

7. PENSION PLANS (cont.)

Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in the separately issued PERSI financial report.

PERSI issues a publicly available financial report that includes financial statements and the required supplementary information for PERSI. That report may be obtained on the PERSI website at www.persi.idaho.gov.

Payables to the pension plan

At June 30, 2025, the District reported payables to the defined benefit pension plan of \$0 for legally required employer contributions and \$0 for legally required employee contributions which had been withheld from employee wages but not yet remitted.

8. PAYROLL EXPENDITURES AND RELATED LIABILITIES

Many employee contracts were signed for the nine-month period September 1, 2024 through May 31, 2025, to be paid over the twelve months of September 1, 2024 through August 31, 2025. The financial statements reflect the salary expense for this period. The accrued payroll reflects the final two months of these contracts.

9. RISK MANAGEMENT

The District is exposed to various risks related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The District's risk management program encompasses various means of protecting the District against loss by obtaining property, casualty and liability coverage through commercial insurance carriers. Settled claims have not exceeded insurance coverage in any of the previous three years.

10. NONMONETARY TRANSACTIONS

The District received \$172,544 in USDA Commodities during the 2024-2025 fiscal year. The commodities received are valued at the average wholesale price as determined by the distributing agency. All commodities received by the District were treated as revenue and expense of the fund receiving the commodities.

JEFFERSON JOINT SCHOOL DISTRICT #251
NOTES TO FINANCIAL STATEMENTS
For the Year Ended June 30, 2025

11. INTERFUND TRANSFERS AND BALANCES

During the course of its operations, the District had numerous transactions between funds to finance operations and provide services. To the extent that certain transactions between funds had not been paid or received as of June 30, 2025, balances of interfund amounts receivable or payable have been recorded. The interfund balances as of June 30, 2025, were as follows:

	<u>Receivable</u>	<u>Payable</u>
General Fund	\$ 1,040,801	\$ -
Various Other Special Revenue Funds	-	1,040,801
TOTAL	<u>\$ 1,040,801</u>	<u>\$ 1,040,801</u>

Interfund transfers for the year ended June 30, 2025, consisted of the following:

	<u>TRANSFER IN</u>	<u>TRANSFER OUT</u>
General Fund	\$ 114,523	\$ 431,421
E-Rate	100,000	
Child Nutrition	63,222	
School Plan Facilities	268,199	
Other Special Revenue Funds	-	114,523
TOTAL	<u>\$545,944</u>	<u>\$545,944</u>

A transfer was made from the General Fund to various funds to provide for budgeted expenditures of \$431,421. The funds went to School Plant Facilities and various Other Governmental Funds.

JEFFERSON JOINT SCHOOL DISTRICT #251
NOTES TO FINANCIAL STATEMENTS
For the Year Ended June 30, 2025

12. OTHER POST-EMPLOYMENT BENEFITS (OPEB) – SICK LEAVE PLAN

The District contributes to the Sick Leave Insurance Reserve Fund (Sick Leave Plan) which is a cost-sharing multiple-employer defined benefit OPEB plan that covers members receiving retirement benefits that are administered by PERSI that covers members receiving retirement benefits and various participating political subdivisions. The cost to administer the plan is financed through the contributions and investment earnings of the plan. PERSI issues a publicly available financial report that includes financial statements and the required supplementary information for the Sick Leave Plan. That report may be obtained on the PERSI website at www.persi.idaho.gov.

Responsibility for administration of the Sick Leave Plan is assigned to the Board comprised of five members appointed by the Governor and confirmed by the Idaho Senate. State law requires that two members of the Board be active Base Plan members with at least ten years of service and three members who are Idaho citizens not members of the Base Plan except by reason of having served on the Board.

OPEB Benefits

Group retiree health, dental, accident, and life insurance premiums may qualify as a benefit. Retirees who have a sick leave account can use their balance as a credit towards these premiums paid directly to the applicable insurance company.

Employer Contributions

The contribution rate for employers are set by statute at .065% of covered compensation for state members. Covered school members contribution rates are set by statute based on the number of sick days offered by the employer. The contribution rate of 1.16% for school members with nine or ten sick days, 1.26% for school members with 11-14 sick days. If a school member has more than 14 days of sick leave then the contribution rate will be set by the PERSI Retirement Board based on current cost and actuarial data and reviewed annually. The District's contributions were \$130,537 for the year ended June 30, 2025.

OPEB Liabilities, OPEB Expense (Expense Offset), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2025, the District reported an asset for its proportionate share of the net OPEB asset. The net OPEB asset was measured as of June 30, 2024, and the total OPEB liability used to calculate the net OPEB asset was determined by an actuarial valuation as of that date. The District's proportion of the net OPEB asset was based on the District's share of contributions relative to the total contributions of all participating Sick Leave employers. At June 30, 2024, the District's proportion was 1.4558591 percent.

For the year ended June 30, 2025, the District recognized OPEB expense (expense offset) of \$149,748. (\$459,966) reported as deferred inflows of resources related to OPEBs resulting from employer contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB asset in the year ending June 30, 2025.

**JEFFERSON JOINT SCHOOL DISTRICT #251
NOTES TO FINANCIAL STATEMENTS
For the Year Ended June 30, 2025**

12. OTHER POST-EMPLOYMENT BENEFITS (OPEB) – SICK LEAVE PLAN (Cont.)

Actuarial Assumptions

Valuations are based on actuarial assumptions, the benefit formulas, and employee groups. The Sick Leave Plan amortizes any net OPEB asset based on a level of percentage of payroll. The maximum amortization period for the Sick Leave Plan permitted under Section 59-1322, Idaho Code, is 25 years.

The total OPEB liability in the June 30, 2024 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.30%
Salary increases	3.05%
Investment rate of return	7.05%, net of investment expenses

The long-term expected rate of return on OPEB plan investments was determined using the building block approach and a forward-looking model in which best estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The health care trend rate is not applicable as the benefit amount a participant will receive is established with a set amount upon retirement thus would have no impact.

Even though history provides a valuable perspective for setting the investment return assumption, the System relies primarily on an approach which builds upon the latest capital market assumptions. Specifically, the System uses consultants, investment managers and trustees to develop capital market assumptions in analyzing the System’s asset allocation. The assumptions and the System’s formal policy for asset allocation are shown below. The formal asset allocation policy is somewhat more conservative than the current allocation of the System’s assets.

The best-estimate range for the long-term expected rate of return is determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation.

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Expected Rate of Return (Arithmetic)</u>
Broad U.S. Equity	39.3%	8.53%
Global EX U.S. Equity	10.7%	9.09%
Fixed Income	50.0%	2.80%
Cash Equivalents	0.0%	2.25%

**JEFFERSON JOINT SCHOOL DISTRICT #251
NOTES TO FINANCIAL STATEMENTS
For the Year Ended June 30, 2025**

12. OTHER POST-EMPLOYMENT BENEFITS (OPEB) – SICK LEAVE PLAN (Cont.)

Discount Rate

The discount rate used to measure the total OPEB liability was 5.45%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate. Based on these assumptions, the OPEB plan’s net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability. The long-term expected rate of return was determined net of OPEB plan investment expense but without reduction for OPEB plan administrative expense.

Sensitivity of the net OPEB asset to changes in the discount rate.

The following presents the District’s proportionate share of the net OPEB asset calculated using the discount rate of 5.45 percent, as well as what the Employer’s proportionate share of the net OPEB asset would be if it were calculated using the discount rate that is 1-percentage-point lower (4.45%) or 1-percentage-point higher (6.45%) than the current rate:

	1% Decrease	Discount Rate	1% Increase
	4.45%	5.45%	6.45%
Total June 30, 2024 OPEB liability	935,559	1,296,383	1,626,323

OPEB Expense

Service cost and interest	\$ 428,293
Expected investment return	(288,832)
Administrative expenses	1,110
Amortization of difference between expected and actual experience	47,908
Amortization of changes of assumptions	(36,996)
Amortization of net difference between projected and actual investment earnings on OPEB Plan investments	(1,735)
OPEB expense	<u>\$ 149,748</u>

OPEB plan fiduciary net position

Detailed information about the OPEB plan’s fiduciary net position is available in the separately issued PERSI financial report.

PERSI issued a publicly available financial report that includes financial statements and the required supplementary information for PERSI. That report may be obtained on the PERSI website at www.persi.idaho.gov.

JEFFERSON JOINT SCHOOL DISTRICT #251
NOTES TO FINANCIAL STATEMENTS
For the Year Ended June 30, 2025

13. DEFERRED OUTFLOWS/INFLOWS OF RESOURCES

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District's deferred outflows of resources consist of bond issue expenses from previous bond issues.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District's deferred inflows of resources for the Statement of Net Position consists of bond premiums from outstanding bonds that will reduce the interest expense in future periods. The District has one type of item, which arises only under a modified accrual basis of accounting, that qualifies for reporting in this category. Accordingly the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes. This amount is deferred and recognized as an inflow of resources in the period that amounts become available.

A summary of deferred inflows and outflows follows:

	DEFERRED INFLOWS OF RESOURCES	DEFERRED OUTFLOWS OF RESOURCES
Bond Issue Expenses	\$ -	\$ 71,522
Bond Premiums	3,604,538	-
Pension Outflows	-	25,654,460
Pension Inflows	(493,526)	-
OPEB - Outflows	-	397,802
OPEB - Inflows	(400,076)	-
	<u>\$ 2,710,936</u>	<u>\$ 26,123,784</u>

Deferred inflows of resources at June 30, 2025, represent revenues that are not available for use by the District to liquidate current year liabilities. A summary of deferred inflows by fund follows:

	GENERAL	DEBT SERVICE	OTHER GOVERNMENTAL	TOTAL
Property tax	\$ 7,776	\$ 57,838	\$ -	\$ 65,614
Other revenue	-	-	-	-
TOTAL	<u>\$ 7,776</u>	<u>\$ 57,838</u>	<u>\$ -</u>	<u>\$ 65,614</u>

JEFFERSON JOINT SCHOOL DISTRICT #251
NOTES TO FINANCIAL STATEMENTS
For the Year Ended June 30, 2025

14. NEW MAJOR FUND

In the current fiscal year, the District established a new major governmental fund, School District Modernization Facilities, to enhance financial reporting transparency and accountability for capital improvement projects.

This fund was classified as a major fund due to its financial significance, as determined by the criteria outlined in GASB Statement No. 34. The fund's revenues, expenditures, assets, or liabilities meet the thresholds for major fund reporting, and its inclusion provided a clearer understanding of the District's financial activities.

The creation of the School District Modernization Facilities fund reflects the District's commitment to aligning its financial reporting with evolving operational priorities and funding sources. Comparative data for prior years is not presented, as this fund was not in existence in previous reporting periods.

15. SUBSEQUENT EVENTS

Subsequent events have been considered through the report date of December 10, 2025. There were no subsequent events that will have a material impact on the operation of the District.

*GASB Statement No. 68 requires ten years of information to be presented in this table. However, until a full 10-year trend is compiled, the District will present information for those use for which information is available.

Data is reported is measured as of June 30.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
PERSI – BASE PLAN
For the Year Ended June 30, 2025

Methods and Assumptions Used in Calculations of Actuarily Determined Contributions

The actuarially determined contribution rates in the employer’s contributions are calculated as of June 30, 2024. The following actuarial methods and assumptions were used to determine contribution rates reported in that schedule.

	PERSI Base Plan
Valuation date	June 30, 2024
Actuarial cost method	Entry age normal
Amortization method	Level percentage of projected payroll open
Remaining amortization period	10.8 years
Asset valuation method	Fair Market value
 <u>Actuarial assumptions:</u>	
Investment Rate of Return *	6.35%
Projected salary increases including inflation	3.05%
Postretirement benefit increase	1.00%
Implied price inflation rate	2.30%
Discount Rate – Actuarial Accrued Liability	6.35%

* net of investment expenses

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

INDEPENDENT AUDITOR'S REPORT

The Board of Trustees
Jefferson Joint School District #251
Rigby, Idaho

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Jefferson Joint School District #251, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 10, 2025.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Jefferson Joint School District #251's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Jefferson Joint School District #251's internal control. Accordingly, we do not express an opinion on the effectiveness of Jefferson Joint School District #251's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether Jefferson Joint School District #251's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL
CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

INDEPENDENT AUDITOR'S REPORT

The Board of Trustees
Jefferson Joint School District #251
Rigby, Idaho

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Jefferson Joint School District #251's compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of Jefferson Joint School District #251's major federal programs for the year ended June 30, 2025. Jefferson Joint School District #251's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Jefferson Joint School District #251 complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2025.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of the Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Jefferson Joint School District #251 and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence that we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of Jefferson Joint School District #251's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to Jefferson Joint School District #251's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain a reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Jefferson Joint School District #251's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Jefferson Joint School District #251's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Jefferson Joint School District #251's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Jefferson Joint School District #251's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of Jefferson Joint School District #251's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses as defined above. However, material weaknesses may exist that have not been identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**JEFFERSON JOINT SCHOOL DISTRICT #251
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
FOR THE YEAR ENDED JUNE 30, 2025**

NOTE 1- BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the schedule) includes the federal award activity of Jefferson Joint School District #251 under programs of the federal government for the year ended June 30, 2025. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of Jefferson Joint School District #251, it is not intended to and does not present the financial position, changes in net assets, or cash flows of Jefferson Joint School District #251.

NOTE 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying schedule of expenditures of federal awards is presented using the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

NOTE 3- NONMONETARY TRANSACTIONS

Nonmonetary assistance is reported for the Food Distribution Program at fair market value of commodities received which is established by the State Department of Education. The District held an undetermined amount of those commodities in inventory at June 30, 2025.

NOTE 4- DE MINIMIS INDIRECT COST RATE

Jefferson Joint School District #251 has elected not to use the 10-percent *de minimis* indirect cost rate allowed under the Uniform Guidance.
